

# ADDERLink™ ipeps+

High performance KVM over IP that delivers a complete, secure, non-blocking approach to Remote Server management

## **Features**

#### **Independent Operation**

Gives full control even during boot up, BIOS level or computer crash states. The ADDERLink™ ipeps+ will work even if the controlled device is not operational.

## **High Video Performance**

The ADDERLink™ ipeps+ will accept an HDMI™ input up to 1920x1200 resolution. It incorporates the renowned VNC™ Viewer from RealVNC®, which allows frame rates of up to 30fps, depending upon available network bandwidth and content. Alternatively, it may be used with any VNC viewer that supports RFB v3 or v4. The unit may be attached to computers with DVI or DisplayPort™ DP++ (dual-mode) with a converter cable.

## **Highly Secure**

Enterprise grade security (using AES 128 or 256-bit encryption and RSA 2048-bit public key authentication) is employed as standard. This is further enhanced by VNC, which allows the creation of ciphered user communications.

## **User Management**

The ADDERLink™ ipeps+ can create up to 16 user profiles with defined access rights. LDAP integration with Active Directory is provided for enterprise level user authentication. Up to 8 remote users may access the unit simultaneously.

## **EDID Management**

The ADDERLink™ ipeps+ has intelligent EDID management allowing the user to specify the video modes generated by the controlled device.

#### Local console

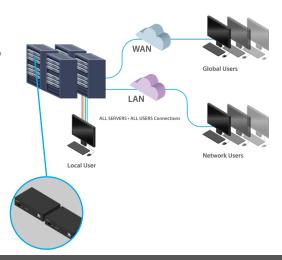

KVM connections are available for local user access. This may be useful during emergency and system maintenance activities.

#### Virtual Media

The ADDERLink™ ipeps+ may be used as a conduit to transfer files in both directions between remote users and the controlled computer.

## Remote Gateway To ADDERLink™ Matrix Products

The ADDERLink™ ipeps+ may be used as a remote gateway into the ADDERLink™ INFINITY, DDX and XDIP matrix systems, plus the ADDERView™ AV4Pro Switch. This will allow remote users to access any computer connected to the switch.

## **Product In Brief**

A powerful and flexible KVM over IP product contained within a compact unit, the ADDERLink™ ipeps+ enables computer access from anywhere in the world, securely and remotely via the Internet or a corporate network.

The ADDERLink™ ipeps+ uses
RealVNC™ client software that is
specifically designed for secure,
high performance KVM over IP
applications

Despite its small size, it offers high performance, including 1920x1200 video streaming at up to 30 frames per second, with non-blocking access for one local user and up to 8 remote

## **Technical Specifications**

#### **Controlled Computer Connections**

HDMI and USB type B. Supports USB 1.1 and 2.0 HID devices (keyboard, mouse, tablet and touch). Can be interfaced to VGA, DVI and DisplayPort with appropriate adaptors.

#### **Video Resolutions**

The system supports resolutions to a maximum of 1920x1200 @60Hz.

#### **Software Compatibility**

All known operating systems. No drivers required.

#### **Network Connections**

RJ45 (8p8c) Ethernet port.

## **Local Console Connections**

HDMI, 3 x USB type A Audio 3.5mm (reserved for future use)

#### **Front Panel**

LED status indicators for network (LNK), local user connection (LOC), remote user connection (REM) and power/upgrade (PWR).

#### **Physical Design**

Compact case, robust metal construction. 169mm/6.65" (w), 31mm/1.22" (h), 120mm/4.8" (d), 0.6kg/1.3lbs.

## **Power Supply**

100-240 VAC, 47/63Hz 12 VDC 18W output from power supply unit.

#### **Operating Temperature**

0°C to 40°C / 32°F to 104°F.

#### **Approvals**

CE, FCC.

#### **About Adder**

Adder is a leading developer and thought leader in connectivity solutions. Adder's advanced range of KVM switches, extenders and IP solutions enable the control of local, remote and global IT systems across the enterprise. The company distributes its products in more than 60 countries through a network of distributors, resellers and OEMs. Adder has offices in the China, Germany, Japan, the Netherlands, Singapore, Spain, Sweden, United Kingdom and United States.

#### **Ordering Information**

IPEPS-PLUS-XX: Single node with 12V PSU and country specific power cable.

XX= Mains Lead Country Code:

UK = United Kingdom

US = United States

EURO = Europe

JPN= Japan

#### **Additional Accessories**

VSCD11: HDMl to DVI-D convertor cable. 2m/6.5ft. VSCD12: Lockable HDMl cable. 1.5m/5ft.

Rackmount kit RMK8:

## What's In The Box

1 x IPEPS-PLUS unit

1 x power supply unit

1 x country specific power cable

1 x 2m/6.5ft. HDMI cable

1 x 2m/6.5ft. USB A to B cable

1 x quick start quide
