

# Laptop USB Console Adapter CV211

- 'Turn your laptop into a mobile console in a few seconds.' The CV211 Laptop USB Console Adapter provides a direct Laptop-to-Computer connection for fast and easy remote desktop access with no software to install. High efficiency in a compact design, the CV211 offers bi-directional file transfers, hotkey macros, video recording and screenshots through a USB 2.0 and VGA composite cable.

The innovative virtual media function provides file application, OS patching and software installations, as well as diagnostic testing through the CV211's intuitive graphical user interface (GUI) which provides easy operation and fast remote access. The GUI console window can be adjusted to the exact size and resolution of the remote computer's desktop by re-sizing the pane automatically; or you can manually adjust the window size as you see fit. This allows you to view the server's entire desktop without needing to use a scroll bar.

In addition, the unique cable clip design is utilized for easy tidying up of disorganized cables while the CV211 is being used and transported. The CV211 is recommended as a portable direct connect server access troubleshooting device for IT professionals.

- bus-Powered
- File Transfer
- Video Recording
- No Software Required
- Laptop OS Support  
Win

## Features

- USB Console Adapter for direct Laptop-to-Computer remote access
- Bi-directional file transfers between local and remote computer
- Supports analogue video resolutions up to 1920 x 1200 @ 60 Hz
- Virtual media enables file applications, OS patching, software installation and diagnostic testing
- Video recording and image capture feature saves a record of remote operations for future training and troubleshooting
- Mouse DynaSync™ – automatically synchronizes the local and remote mouse movements
- On-screen keyboard with multi-language support
- Supports hotkey macros– define keystrokes that execute specific actions on the target computer to complete tasks efficiently and accurately
- Toolbar helps users easily operate all the functions from a single-click control panel within the remote view window
- Desktop scaling – user can adjust the size/resolution of the Remote desktop window by size or ratio
- Supports hot-plugging
- Plug-and-Play – no software installation required
- Firmware upgradable
- Unique cable clip design to get cables under control

## Specifications

Function	CV211
<b>Computer Connections</b>	1
<b>Connectors</b>	
Laptop USB Console (LUC) Port	1 x Mini-USB Female (Black)
KVM (Computer) Ports	1 x USB Type A Male (Black) 1 x VGA Male (Blue)
<b>LEDs</b>	1 (Blue)
<b>Environmental</b>	
Operating Temperature	0° to 40° C
Storage Temperature	- 20° to 60° C
<b>Humidity</b>	0 - 80% RH, Non-condensing
<b>Physical Properties</b>	
Housing	Plastic
Weight	0.13 kg
Dimensions (L x W x H)	7.05 x 5.37 x 3.01 cm
